## COMMENTS AND INSTRUCTIONS

Violation:1 Observed unlabeled chemical bottle (200 ppm quat) on custodial cart in use in student restroom. Please ensure that all chemical bottles are labeled.

Code Reference FAC: School Site 64E-13.004(1). The school site should not pose health threats from hazardous materials.

Violation:10 THIRD AND FINAL NOTICE: Room 2-008: Observed furniture (changing station cabinet) on floor of student restroom. This cabinet does not allow cleaning underneath it and is built in a manner that will absorb sewage from toilet backflow or student urine. It is not cleanable and sanitizable. Please change to a changing table that can be rolled out of the restroom to clean underneath it or use a wall-mounted changing table.

Code Reference FAC: Provided/Accessible 64E-13.004(6). Every school plant shall be provided with toilet and hand washing facilities that are kept clean and in good repair.

Violation:15 No soap dispensers were observed in the boys side of the portable restroom on playground. The girls side contained a diluted soap in a plastic pump bottle. Please install proper soap dispensers and stock with proper strength soap.

Code Reference FAC: Handwash Facilities 64E-13.004(6)(b). Handwashing facilities shall be located within or adjoining each toilet room. Soap dispensers shall be provided at all wash basins and liquid or powdered soap shall be used.

Violation:19 Room 1-10: Inadequate water pressure to clear nozzle at sink water fountain. Please increase water pressure to clear nozzle.

Code Reference FAC: Drinking Fountains 64E-13.004(7)(b). Drinking fountains of an approved, sanitary slant jet type shall be provided in the ratio specified in the local building code or Chapter 64E-10, F.A.C.

1. Room 2-011: Observed dead bat on floor of classroom. Staff in this building stated that numerous dead bats have been appearing on classroom floors throughout the building on a daily basis. Please locate source of bats and remove from building. NOTE: It is possible that bats could gain entry into the building if classroom or hallway doors are left open during cleaning activities or are being drawn to the building by insects attracted to light coming from open doors in rooms.

2. Building 1, Main North-South Hallway; Building 1 North-South Hallway west of office: Large gaps observed under exterior doors could allow rat and roach (and possibly bat) entry into building. Please seal door gaps.

Code Reference FAC: Infestation/Control 64E-13.004(10). Effective measures shall be used to prevent harborage, propagation, or infestations of rodents and all insects.
